CIOB

Company Member

Chartered Institute of Building (CIOB)

The CIOB is the world's largest and most influential professional body for construction management and leadership. Being a Chartered Company Member proves that our company is run by professionally qualified managers, experienced in all aspects of the building process. It demonstrates to clients and suppliers that your company is committed to the principles and values of best practice, ethical standards and professionalism.

ISO 9001 Quality management System

This robust Quality management system helps us to achieve consistency and client satisfaction on every project, from procurement through to delivery.

Constructionline

Platinum Member

Constructionline Platinum with Acclaim

Constructionline PLATINUM, is the highest H&S accreditation available to building contractors.

We partner with Constructionline to manage the risk associated with the supply chain and procurement cycle of any project. Constructionline enables us to pre-qualify and our Supply Chain and offer the highest level of Safety in Procurement.

The Green Register

TGR is a great source of CPD and a reference point for all current standards regarding efficiency and best practice. CopperStone work closely with the The Green Register to deliver the Environmental aspects of our ESG strategy.

How do we do it?

Mates in Mind

It's widely accepted that Construction sometimes lags in dealing with issues of Mental Health. CopperStone work with MIM to offer all our employed staff, Sub-Contractors and Partners practical, confidential advice as part of their association with us. Good mental health and talking about how you're feeling is the key to being happy and productive.

Fonn Construction Management Software

This software supports all our sites, with a Central Hub for document and change control. Collaboration between CopperStone and all stake holders in the project, Fonn has also reduced our snagging time on site by 40%.

Crest Software Programming

CopperStone uses Crest Software Project Planning to produce effective programmes enabling planning and monitoring of all aspects of a project in respect to Time, Resources & Cost.
